Owner Sought

Stray Horse Rescued by SEAACA Officers

Montebello, Calif The call came in to SEAACA's dispatch center just before 2pm on Saturday, July 18th: a large brown horse was running loose on the riverbed which intersects Beverly Blvd. in Montebello, near Grant Rea Park.

SEAACA Officer Matthew Blume arrived within eight minutes of receiving the call, and quickly spotted the brown thoroughbred pacing nervously near the park fence line. Two men had managed to get close enough to the horse to contain him.

Blume called for SEAACA's horse trailer and loaded the animal without incident. The horse is being housed at a local stable

under contract with SEAACA.

“We don't receive a lot of stray horse calls at SEAACA ... fortunately,” said Captain Aaron Reyes, Director of Operations at SEAACA. “Although a little thin, he looks otherwise well cared for and I'm sure someone is wondering what happened to him.”

SEAACA wants to re-unite the horse with its owner, and is asking for the public's assistance. Anyone with information on this horse is asked to call SEAACA Investigative Division at (562) 803-3301 x 224.
